

Commercial Truck Green Belt Training

THE PRACTICAL APPLICATION OF LEAN SIX SIGMA TAILORED FOR COMMERCIAL TRUCK COLLISION REPAIR

The curriculum has been carefully developed to provide an effective balance between teaching the proven science behind process improvement and implementing practical solutions for driving best-in-class performance in an environment that allows the participants to learn in the classroom and to understand how to apply in their collision center. The size or volume of a collision center doesn't necessarily determine success in today's marketplace nor are they qualifications for MVP Commercial Truck Green Belt Training. If your shop has a vision for the future—and a strong sense of urgency to prepare for it—plus a willingness to accept, change and commit to a culture of continuous process improvement, you're an ideal candidate for MVP Commercial Truck Green Belt Training.

WHO SHOULD ATTEND Ideally, those persons most responsible for leading change in your organization—the owner, manager and lead technician should together attend MVP Commercial Truck Green Belt Training, enabling the formation of a leadership team for change.
